AIR DISTRIBUTION PRODUCTS

VOLUME 8

VICTORIA

LABORATORY

PRODUCT APPLICATION

Supply Venturi Valves

- Medium (0.6 to 3.0 in.w.c.) or low (0.3 to 3.0 in.w.c.) pressure operation
- High-speed actuation
- Characterized and calibrated using NVLAP accredited test stations (Lab Code: 201067-0)
- Operating pressure feedback

Pace™

- Pressure or volumetric offset control strategies
- Airflow control utilizing Venturi Valves, Venturi FX Valves or Terminal Units
- High speed room level network for communication to Pace and FHC controllers
- BACnet MS/TP

Integrated Reheat Coil

- Factory mounted transition
- Coil access door

Room Pressure Sensor

- Maintenance and calibration-free sensor technology
- Accurate to 3% of reading
- Designed to prevent buildup of airborne particulates

Thermostat

- LCD or blank-face options
- Optional humidity or CO₂ sensing
- Optional connection to room level network for commissioning

General Exhaust Venturi Valve

- Medium (0.6 to 3.0 in.w.c.) or low (0.3 to 3.0 in.w.c.) pressure operation
- High-speed actuation
- Characterized and calibrated using NVLAP accredited test stations (Lab Code: 201067-0)
- Operating pressure feedback

Pace™

- Pressure or volumetric offset control strategies
- Airflow control utilizing Venturi Valves, Venturi FX Valves or Terminal Units
- High speed room level network for communication to Pace and FHC controllers
- BACnet MS/TP

Integrated Silencer

- Factory mounted transition
- Specifically designed for Venturi Valves

Fume Hood Venturi Valve

- Medium (0.6 to 3.0 in.w.c.) or low (0.3 to 3.0 in.w.c.) pressure operation
- High-speed actuation
- Characterized and calibrated using NVLAP accredited test stations (Lab Code: 201067-0)
- Operating pressure feedback
- Optional corrosion resistant coatings

Fume Hood Controller

- Sash position, sidewall sensor or combination face velocity control
- High speed response
- LCD fume hood interface
- Connection to room level network

Above: Chilled Beams

ACTIVE & PASSIVE BEAMS

BUILDING APPLICATIONS

- + Thermal comfort is a major design consideration
- + Spaces with high sensible heat releases
- + Spaces requiring high indoor air quality (100% fresh air)
- + Spaces requiring energy conservation

AIR-WATER SYSTEM BENEFITS

- + Reduced system power consumption
- + Reduced maintenance costs
- + Environmental quality
 - Improved indoor air quality
 - Improved thermal comfort
- + Reduced mechanical footprint

ACTIVE & PASSIVE BEAM TYPES

- + Active linear, vertical, horizontal, modular, perimeter induction units, exposed, and floor mounted cabinets
- + Passive linear beams
- + Passive beams with integrated return

Price's industry leading sound lab: Price Research Center North

PRICE SOUND LABORATORY THE SCIENCE OF QUIET

NOISE CONTROL AND PRICE RESEARCH CENTER NORTH

Price Noise Control products are tested in Price's state-of-the-art acoustical testing facility, which is accredited by the National Voluntary Laboratory Accreditation Program (NVLAP Lab Code 200874-0) for testing in accordance with the latest standard of ASTM E477. This enables Price to design innovative noise control products with lab-proven performance.

CAPABILITIES AND BENEFITS

- + Commercial and custom silencers
- + Rectangular, elbow and circular silencers
- + Absorptive, film-lined, and packless silencers
- + Speech privacy and cross talk silencers
- + Acoustic enclosures and barriers
- + Acoustical louvers

COMMERCIAL GAS FIRED

Make-Up Air Units

HVAC Products and Services for the Commercial Sector

Gas fired make-up air units and air handling units are used throughout the warehouse, transportation garage, restaurant, and manufacturing industries.

The rigorous demands of these applications form the backbone of the Commercial Gas Fired Make-Up Air Series of products. Contractors, engineers and building owners are challenged daily with HVAC construction, design and performance – both in new and retrofit applications. Designers must meet stringent requirements regarding energy efficiency, indoor air quality (IAQ) standards, and life cycle cost. To meet these challenges, SolutionAir has developed the PMI-IF, AW-I, and AW-D series of gas fired make-up air units.

Visit solutionairgroup.com or call 1.204.633.4808

90% EFFICIENT FURNACE

For Indirect Fired Rooftop Units

Reduce operating costs with high efficiency Indirect Fired Make-Up Air Units

PMI-IF series

The PMI-IF series is an indirect fired unit that utilizes a standard (80% efficient) or an optional high efficiency (90% efficient) stainless steel convoluted tube heat exchanger. By separating combustion air from the supply air, the unit is able to maintain excellent indoor air quality (IAQ). These units can be used in schools, offices, and institutional projects – anywhere that IAQ is paramount. The convoluted tube furnace is one of the most cost effective indirect fired designs.

AW-I series

For demanding indirect fired applications, SolutionAir offers the AW-I series with a three pass stainless steel drum and tube heat exchanger. The robust heat exchanger was designed to be incredibly reliable.

AW-D Series

For applications requiring a large volume of 100% outdoor air, the AW-D series offers a direct-fired alternative. The unit incorporates a high efficiency burner, which is capable of a high turndown ratio, maximizing discharge air temperature control with minimal combustion by-products.

Visit solutionairgroup.com or call 1.204.633.4808

PROJECT: Morris, Manning & Martin, LLP | **LOCATION:** Atlanta, Georgia | **ARCHITECT:** Gensler

FROM PUBLIC TO PRIVATE CROSS TALK SILENCERS

OPTIMIZING THE ACOUSTIC ENVIRONMENT

The design team created luxuriously quiet and intimate spaces for Morris, Manning & Martin, LLP by integrating Noise Control products such as Cross Talk Silencers, Return Air Silencers, and Return Air Canopies. Price's expansive range of Noise Control solutions allow for endless design possibilities without compromise.

WHY USE PRICE NOISE CONTROL?

- + **Maximize Privacy:** Minimize noise flanking.
- + **Laboratory Tested:** Reliable performance data.
- + **Custom Applications:** Endless design flexibility.
- + **LEED:** School & Healthcare applications.
